## Calling Art Volunteers

Join a team of arts volunteers working with patients in St Joseph's Day Hospice Hackney.

Art volunteers do small, simple arts projects with the patients involving drawing, painting, 3D, photography and video. The aim is to encourage patient self expression, self confidence and well being.

This volunteering opportunity would entail two and half hours on Tuesday mornings (10-12.30) and it can be a short or long term involvement.

It's a fun, rewarding and easy activity, there is a very warm atmosphere and plenty of support. It might suit someone who is looking to move into an arts' education career or related.

If you're interested please contact Richard Livingston, one of the volunteers and an artist in London.
