

Season's Greetings

Our team collaborated remotely to create a stop motion animation to wish you all the very best for this festive period and the new year.

Video transcript

We know that this is a worrying and unsettling time for many. We need creativity now more than ever to support each other, and to make sure that the arts continue to thrive.

Over the past few months we have set up a hardship fund to support our studio holders in financial need, started sending regular newsletters packed with useful resources for creatives, and organised free one to one portfolio advice sessions with our artists online. We continued to use creativity to support the wellbeing of our programme communities.

Our positive vision for 2021 is to maintain safe and healthy working environments for our studio holders, nurture creative production in all our studios, and celebrate the amazing work made by the communities and partners who participate in our public programmes, despite the challenges we are all facing.

Wishing you all the very best for 2021 from ACAVA.

[Video description: Stop motion animation with hand drawn intro titles (holly, red berries and "Season's Greetings" text), artists making work in their studios and ACAVA programme participants creating outdoors.]
